EXPLANATORY NOTES

The directory contains an enormous amount of information of various kinds, but this fact will not be appreciated unless the reader studies the Index on Page 2 and Contents on Page 3. To save space, symbols and abbreviations have been liberally used; it is important that the reader thoroughly familiarize himself with these, as well as with the various departments of the directory. The information is here, but much of it is available only through the use of the key on Page 7.

Part I—National and Interstate Information

American Medical Association and Its Officers, Constitution, By-Laws, Principles of Medical Ethics, Sessions and Presidents 9
National and Interstate Societies 17
Medical Colleges 19
National Board of Medical Examiners 36
American Board for Ophthalmic Examinations 36
American Board of Otolaryngology 36
Hospitals Approved for Internships 37
Hospitals Approved for Residencies in Specialties 45
Pathologists Conducting Approved Clinical Laboratories 49
Medical Libraries 51
Medical Journals 57
Medical Officers of the Army, Navy and Public Health Service 63
Physicians in the Service of the U. S. Veterans' Bureau 75
Physicians in the Indian Field Service 78
Members of Special Medical Societies 81

Part II—Information Under Each State

Population, Estimated 1928.
Number of Counties in State.
Number of Physicians.
Number of Members Constituent State Society.
Medical Practice Law.
Members, State Examining Boards and State Board of Health.
City, County and District Health Officers.
Officers of Constituent State Society and Editor State Journal.
Officers of Component County or District Medical Societies.
State Institutions.
Hospitals, Sanatoriums and Charitable Institutions.
City, Population and County.
List of Physicians.

Part III—Index of Physicians (Page 1717)

Names of Physicians are arranged alphabetically by surnames. Full names are given in place of initials wherever possible. The address which follows each name indicates the portion of the classified directory where complete information regarding the physician is given. Key to symbols used in the index:

† Refers to addenda, page 1714.
‡ Refers to death recorded in addenda, page 1714
§ Address unknown, page 1696.

Foreign List (Page 1689)

This edition includes a list of American physicians who are located temporarily in foreign countries, arranged alphabetically by continent, country and locality with islands grouped under nearest continent. The Foreign List follows the geographical section of United States and Canada. The addresses following these names in the Index indicate the portion of the Directory where complete information regarding these physicians will be found.

Addenda (Page 1714)

The Addenda include the names of physicians received too late to classify; also corrections and deaths recorded during the printing of the directory. These names appear in the Index, followed by the symbols † for addenda and ‡ for death.

Addresses Unknown (Page 1696)

It has been deemed advisable to include in this edition an alphabetical list of physicians, with data, whose present locations are unknown. These names appear in the Index, followed by the symbol §.

Local Address and Office Hours

Local addresses and office hours are given in cities of more than 10,000 population.

Number and Street have been used instead of Building in compliance with the request of the Postmaster General.

Number of Physicians

The number is given in cities that have one hundred (100) or more physicians; number in states, see page 8.

Pathologists, Bacteriologists, Etc.

Pathologists, Bacteriologists, Dentists, Druggists, etc., are included in this directory when they are medical graduates. If not in medical practice, license is not required.

Physicians Listed Under Two Places

When a physician lives in one town and has an office in another, all data are given in one place, only name and reference in the other.

Population

Population given at the beginning of each state is the estimate made by the Bureau of Census, Washington, D. C., July 1, 1928. Population given after each city in the United States is obtained from the census of 1920, except in cases where a special census has been taken or an estimate made.

(S. C. 1928)—Special census taken 1928. (E. P. 1926)—Estimated population of 1926.

Saint, Fort, Mount and Port, R. D. and Neighboring P. O.

Names of cities and towns are printed according to the Official Postal Guides of the United States and Canada. The prefix Saint is abbreviated, as St. Louis, but is filed as, Saint. Fort, Mount and Port are spelled out and are arranged in alphabetical order. (R.D.) is given in all places receiving mail by rural delivery; (P.O.) in all places receiving mail at neighboring postoffices. These postoffices must always be used when addressing physicians in such places.

Special Licensing Boards

National Board of Medical Examiners.—Licensure by this board is included in the data following the physician's name (N.B.'26—licensed by National Board of Medical Examiners 1926).

American Board for Ophthalmic Examinations and American Board of Otolaryngology.—In this edition certification by the American Board for Ophthalmic Examinations and the American Board of Otolaryngology is included in the data following the physician's name and indicated by B6 and B7, respectively. The physicians' names are also listed under Special Societies, pages 99 to 108.

*SEE RESPECTIVE STATE—GENERAL INFORMATION

Mellin's Food - A Milk Modifier

made from

Wheat Flour, Wheat Bran and Malted Barley

and containing

Maltose, Dextrins, Proteins and Mineral Elements

The use of maltose and dextrins in infant feeding is not new, for it is now over sixty years since the introduction of Mellin's Food:—

The First Preparation of
Maltose and Dextrins
Presented to Physicians in Serviceable Form

The persistent efforts of the Mellin's Food Company in placing before physicians a maltose and dextrins product, and the highly satisfactory results from the use of Mellin's Food as a milk modifier, are largely responsible for the favorable attitude of physicians toward maltose and dextrins as the carbohydrate element of an infant's diet.

Maltose and Dextrins in proportion as found in Mellin's Food, augmented by Proteins and Mineral Salts from wheat and barley, may be employed successfully:—

In the feeding of normal infants
In conditions where a gain in weight is especially desired
In the adjustment of the diet to overcome constipation
In the feeding of marasmic infants

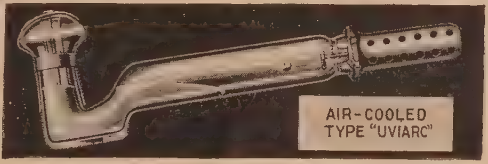
WATER-COOLED
TYPE "UVIARC"



Why the Mercury-Vapor Arc in Quartz for Ultraviolet Therapy?

Consider These Points

Consistent operation, contributing to accurate dosage measurement.

Greater output, means a given dosage in 1/3 to 1/5 the usual time.

Will operate continuously all day without attention.

Cleanliness, no sparks or fire hazards.

Cost of current consumption negligible.

No special wiring—connect to ordiary lamp socket.

There are a number of other pertinent facts of interest to every physician or institution contemplating the installation of ultraviolet equipment. Write for full information.

TWENTY-FIVE years ago the Victor X-Ray Corporation announced to the medical profession an open type carbon arc lamp for therapeutic purposes, followed a few years later by another and larger model, "The Sun," the clinical application of which was stimulated by Dr. Finsen of Copenhagen.

A great deal of valuable experience was thus obtained, but even though clinical results reported by Finsen were generally reproduced, the adoption of this source of ultraviolet was limited.

Although the carbon arc type of lamp can be manufactured at a low cost and is consequently more readily sold on a low price basis, the Victor X-Ray Corporation abandoned it with the advent of the *Uviarc*, which produces a mercury-vapor arc in a quartz tube having a tungsten anode. The primary object of this development was to produce a quartz vessel without a ground joint and with metallic lead-in wires sealed in a vacuum tight manner, so as to permit the use of higher wattage input with a consequently greater ultraviolet output.

The scientific advances in ultraviolet therapy and its widespread adoption in the leading clinics in recent years are coincident with the availability of the mercury-vapor arc in quartz.

Year Book Publishers............ 380A

in this list, firm names are abbreviated as follows:

American Medical Association (A. M. A.)
Cooperative Medical Advertising Bureau (C. M. A. B.)........................ 880B
Harvard University Press (H. U. P.).... 1716A
Lea & Febiger (L. & F.)................. 16A
Macmillan Company (Mac.)............ 380B
Mosby Co., C. V. (M.)................56A-56B
Oxford University Press (O. U. P.)..... 2249
Saunders Company, W. B. (S.).........8A-8B
Wood & Company, Wm. (Wood)........ 80A
Year Book (Year)...................... 380A

Anatomy, Biology, Embryology, Heredity, Zoology

Arey—Developmental Anatomy (S.)......8A-8B
Bailey & Miller—Embryology (Wood)... 80A
Bailliere—Atlas of the Anatomy and Physiology of the Male (Wood)...... 80A
Bailliere—Atlas of the Female (Wood).. 80A
Barclay—Elem. Anat. and Phys. for Nurses (Wood)...................... 80A
Baylis—Manual of Helminthology (Wood) 80A
Beesley & Johnston—Manual of Surgical Anatomy (Wood).................... 80A
Bertwistle—Atlas of Radiographs of the Bones and Joints (Wood)............ 80A
Borradaile—Manuel of Elementary Zoology (O. U. P.).................... 2249
Bowen—Applied Anatomy and Kinesiology (L. & F.).......................... 16A
Bradley—Anatomy of the Horse (Wood) 80A
Buchanan—Manual of Anatomy (M.)...56A-56B
Burn—Methods of Biological Assay (O. U. P.).......................... 2249
Burns—Introduction to Biophysics (Mac.) 380B
Calkins—Biology of Protozoa (L. & F.).. 16A
Campbell—Surgical Anatomy (S.).......8A-8B
Christian—Anatomy for Nurses (Mac.).. 380B
Clark—Protists and Disease (Wood)..... 80A
Coghill—Anatomy and the Problem of Behaviour (Mac.).................. 380B
Cokkinis—Reproduction of Life (Wood).. 80A
Cunningham—Hormones and Hereditary (Mac.) 380B
Cunningham—Manual of Practical Anatomy (Wood)........................ 80A
Cunningham—Textbook of Anatomy (Wood) 80A
Dobell—Amoebae Living in Man (Wood) 80A
Dobell and O'Connor—Intestinal Protozoa of Man (Wood).................... 80A
Dewey—Dental Anatomy, Human (M.) 56A-56B
Dewey-Thompson—Comparative Dental Anatomy (M.)......................56A-56B
Drew—Invertebrate Zoology (S.)........8A-8B
Dunlop—Anatomical Diagrams (Mac.)... 380B
Eycleshymer—Anatomical Names (Wood) 80A
Eycleshymer and Jones—Clinical Anatomy (L. & F.).......................... 16A
Fagge—Aids to Anatomy (Wood)....... 80A
Falk—Vital Statistics (S.).............8A-8B
Fantham—Animal Parasites of Man (Wood) 80A
Gilchrist and von Bonde—Practical Zoology (Wood)......................... 80A
Gray—Anatomy (L. & F.)............. 16A
Gray—Ciliary Movement (Mac.)......... 380B
Goodall—Aids to Histology (Wood)...... 80A
Goddard—The Kallikak Family (Mac.)... 380B
Green—Dental Anatomy (S.)...........8A-8B
Green—Morbid Anatomy (L. & F.)..... 16A
Hargitt and Hargitt—Outlines of General Biology (L. & F.)................... 16A
Headridge and Gibson—Dental Anatomy (Wood) 80A
Hess and Zurcher—Anatomy of the Root Canals of the Teeth (Wood).......... 80A
Hegner, Cort, Root—Outlines of Med. Zoology (Mac.)..................... 380B
Hegner—Taliaferro—Human Protozoology (Mac.) 380B
Jamieson—Companion to Manual of Anat. (Wood) 80A
Kimber & Gray—Anatomy and Physiology (Mac.) 380B
Massie—Surgical Anatomy (L. & F.).... 16A
Mayo Foundation—Heredity (S.).......8A-8B
McFarland—Biology (S.)..............8A-8B
McKendrick and Whittaker—X-Ray Atlas of the Norm. and Abnorm. Struc. of the Body (Wood)................... 80A
Mulliner—Elementary Anatomy (L. & F.) 16A
Orrin—X-Ray Atlas of the Arteries (Wood) 80A
Parkes—Artistic Anatomy (Wood)...... 80A
Pauchet Dupret—Pocket Atlas of Anatomy (Wood)....................... 80A
Pearl—Medical Biometry (S.)...........8A-8B
Phillips—Vertebrate Embryology (L. & F.) 16A
Pitzman—Fundamentals of Human Anatomy (M.).......................56A-56B
Punnett—Heredity in Poultry (Mac.).... 380B
Radasch—Anatomy (S.)................8A-8B
Robinson & Jamieson—Surface Anatomy (Wood) 80A
Sharp—Schistosomiasis vel Bilharziasis (Wood) 80A
Thomson & Robertson — Protozoology (Wood) 80A
Todd—Introduction to Mammalian Dentition (M.)........................56A-56B
Toldt—Atlas of Human Anatomy (Mac.).. 380B
Treves—Surgical Applied Anatomy (L. & F.) 16A
Turner—Aids to Osteology (Wood)...... 80A
Underwood—Aids to Dental Anat. and Phys. (Wood)...................... 80A
Wallace—Variations in the Form of the Jaws (Wood)...................... 80A
Wenyon—Protozoology (Wood).......... 80A
Whittaker—Hughes Nerves of the Human Body (Wood)...................... 80A
Whittaker—Surgical Anatomy (Wood).. 80A
Wilson—How Our Bodies are Made (O. U. P.)......................... 2249
Wilson—The Child of Circumstance (Wood) 80A
Williams—Anatomy and Physiology (S.)..8A-8B
Wolff—Anatomy for Artists (Mac.)...... 380B
Wolf—Shorter Anatomy (Wood)......... 80A
Zinsser, Hopkins, Ottenberg—Lab. Guide in Serum Study (Mac.)............... 380B

Anesthesia

Black—Local Anesthesia in Dental Surgery (Wood) 80A
Braun—Local Anesthesia (L. & F.)..... 16A
de Takáts—Local Anesthesia (S.)........8A-8B
Farr—Local Anesthesia (L. & F.)...... 16A
Fischer—Local Anesthesia in Dentistry (L. & F.) 16A
Gwathmey—Anesthesia (Mac.) 380B
Hadfield—Practical Anesthetics (Wood).. 80A
Hertzler—Technic of Local Anesthesia (M.) 56A-56B
Levy—Chloroform Anesthesia (Wood)... 80A
Posner — Local Anesthesia Simplified (M.) 56A-56B
Ross—Handbook of Anesthetics (Wood).. 80A
Smith—Block Anesthesia and Allied Subjects (M.) 56A-56B
Smith—Dental Anesthesia (Wood)...... 80A
Thoma—Oral Anesthesia (L. & F.)...... 16A
Webster—Anesthesia for Nurses (M.)..56A-56B
Webster—Science and Art of Anesthesia (M.) 56A-56B
Webster—Anesthesia for Nurses (M.)..56A-56B

Bacteriology, Immunity

Abbott—Bacteriology (L. & F.)........ 16A
Axenfeld — Bacteriology of the Eye (Wood) —........................... 80A
Baldwin, Gardner and Petroff—Bacteriology of Tuberculosis (L. & F.)........ 16A
Baldwin, Gardner and Petroff—Tuberculosis: (Bacteriology) (L. & F.)...... 16A
Bigger — Handbook of Bacteriology (Wood) 80A
Borradaile—Manual of Elementary Zoology (O. U. P.)...................... 2249

CONTINUED ON PAGE 2250

Broderick—Dental Bacteriology (Wood).. 80A
Browning — Immuno - Chemical Studies (Wood) 80A
Bulleid—Bacteriology for Dentists (M.) 56A-56B
Carter—Bacteriology for Nurses (M.)..56A-56B
Clarke—Protists and Disease (Wood).... 80A
Daniels and Newham—Lab. Studies in Trop. Med. (Wood).................. 80A
Danysz and Rackemann—Evolution of Disease (L. & F.).................. 16A
Eisenberg — Bacteriology for Nurses (M.) 56A-56B
Endelman & Wagner—General and Dental Pathology (M.) 56A-56B
Fantham — Animal Parasites of Man (Wood) 80A
Faust—Human Helminthology (L. & F.) 16A
Feinblatt—Eggerth—Clinical Laboratory Medicine (Wood) 80A
Ford—Bacteriology (S.)................8A-8B
Fred—Soil Bacteriology (S.)...........8A-8B
Gershenfield—Bacteriology and Sanitary Science (L. & F.).................. 16A
Greaves—Agricultural Bacteriology (L. & F.) 16A
Greaves—Elementary Bacteriology (S.)...8A-8B
Gurd—Infections, Immunity and Inflammation (M.) 56A-56B
Haden—Dental Infection and Systemic Disease (L. & F.).................. 16A
Jordan—General Bacteriology (S.).......8A-8B
Kendall—Bacteriology (L. & F.)........ 16A
Kolmer—Infection and Specific Therapy (S.) 8A-8B
Kolmer—Serum Diagnosis (L. & F.).... 16A
Krantz — Pharmaceutical Chemistry (M.) 56A-56B
Labat—Regional Anesthesia (S.)........8A-8B
Laboratory Methods of the U. S. Army (L. & F.)......................... 16A
Mackie and McCartney—Intro. to Prac. Bact. (Wood) 80A
Morrey—Fundamentals of Bacteriology (L. & F.)......................... 16A
Muir & Ritchie—Manual of Bacteriology (O. U. P.)......................... 2249
Muir—Bacteriological Atlas (Wood)..... 80A
Pappenheim—Lumbar Puncture (Wood).. 80A
Park—Williams and Krumwiede—Pathogenic Microorganisms (L. & F.)...... 16A
Partridge—Aids to Bacteriology (Wood).. 80A
Petersen—Protein Therapy and Nonspecific Resistance (Mac.)............ 380B
Rivas—Parasitology (S.) 8A-8B
Robertson — Therapeutic Immunization (Wood) 80A
Schamberg & Kolmer—Acute Infectious Diseases (L. & F.).................. 16A
Simon—Syllabus of Clinical Pathology (L. & F.)......................... 16A
Smeeton—Bacteriology for Nurses (Mac.) New. Ed. 380B
Smith—Bacterial Diseases of Plants (S.).8A-8B
Steadman—Notes on Bacter. for Den. Stud. (Wood) 80A
Vaughan—Poisonous Proteins (M.)....56A-56B
Weyon—Protozoology (Wood) 80A
Wheeler & Hunter Laboratory Manual of the Massachusetts General Hospital (L. & F.)....................... 16A
Whetzel—History of Phytopathology (S.) 8A-8B
Whetzel—Plant Pathology (S.).........8A-8B
White Applied Bacteriology for Nurses (Mac.) 380B
Woolley—Fundamentals of Pathology (M.) 56A-56B
Zinsser, Hopkins and Ottenberg—A Laboratory Guide in Serum Study (Mac.).. 380B
Zinsser—Infection and Resistance (Mac.) 380B

Botany

Mansfield—Botany (L. & F.)........... 16A
Rigg—The Pharmacists' Botany (Mac.).. 380B

Brain, Nervous and Mental, Psychotherapy, etc.

Ash—The Problem of Nervous Breakdown (Mac.) 380B
Bailey—Nursing Mental Diseases (Mac.) 380B
Baker — Psychoanalysis Explained and Criticized (Mac.) 380B
Barnes—Mental Disorders (M.)........56A-56B
Bassoe—Year Book of Nervous and Mental Disease, The (Year).............. 380A
Bennet—Suggestion and Common Sense (Wood) 80A
Berry—The Nervous System of Man (Mac.) 380B
Bianchi—Mechanism of the Brain (Wood) 80A
Bing—Compendium of Regional Diag. (M.) 56A-56B
Bowers—Psychiatry (S.) 8A-8B
Brill—Psycho-analysis (S.).............8A-8B
Brown—Advanced Suggestion (Wood).... 80A
Cajal—Degeneration and Regeneration of of the Nervous System (O. U. P.) 2 Vols. 2249
Church and Peterson—Nervous and Mental (S.) 8A-8B
Cobb—Manual of Neurasthenia (Wood).. 80A
Core—Examination of the Central Nervous System (Wood).................. 80A
Core — Functional Nervous Disorders (Wood) 80A

OXFORD MEDICAL PUBLICATIONS

GENERAL MEDICINE

Williams—Middle and Old Age	$ 3.25
Dodds & Dickens—Internal Secretions	2.50
Rollier—Heliotherapy	6.25
Price—Textbook of Medicine	10.00

HUMAN ANATOMY AND PHYSIOLOGY

Wilson — How Our Bodies Are Made	$ 1.75
Dodds & Lickley—Control of the Breath	1.75
Wright—Applied Physiology	5.50
Cooper—Endocrine Organs	4.00
Carleton—Histological Technique	5.00
Fano—Brain and Heart	2.75

BACTERIOLOGY AND BIOLOGY

Muir & Ritchie—Manual of Bacteriology	$ 4.75
Borradaile—Manual of Elementary Zoology	5.40
Burn—Methods of Biological Assay	2.55

CHEMISTRY

Bentley & Driver—Textbook of Pharmaceutical Chemistry	$ 6.00
Kerridge—Physical Chemistry for Medical Students	1.75
Lambourne—Qualitative and Volumetric Analysis for Medical Students	1.50

CHILDREN

Cameron—Diseases of Children	$ 1.75
Still—Diseases of Childhood	9.00
Cameron—The Nervous Child	1.75
Eng—Emotional Life of the Child	6.50
Oliver—Health of Child of School Age	1.80
Burnett—Disease of the Newborn	1.85
Mumford—Healthy Growth	5.00
Ward — Abdominal Surgery of Children	4.50
Chesser—Child Health and Character	1.50
Erleigh — Mind of the Growing Child	1.75

HYGIENE, TROPICAL DISEASES

Porter—Elements of Hygiene and Public Health	$ 4.50
Byam—Medicine in the Tropics, 3 vols.	75.00
Hehir—Malaria in India	12.75

NURSING AND MASSAGE

Groves & Brickdale—Textbook for Nurses	$ 6.50
Despard—Textbook of Massage	6.65
Groves—Surgical Operations	4.50
Newsome—Everywoman a Nurse	1.25

MEDICAL PRACTICE

Newman—Private Practitioner in Preventive Medicine	$ .30
Christian — Oxford Loose-Leaf Medicine, 12 vols.	120.00
Woodwark—Manual of Medicine	4.75
Lenk—Handbook of X-Ray Therapy	2.25
Colwell & Wakeley — X-Ray and Radium	3.35
Hernaman—Johnson, Radiotherapy	1.75
Kennedy — Parasitology for Medical Students	3.00
Harris—Neuritis and Neuralgia	4.00
Graham—Diabetes Mellitus	2.75
Conybeare—Self-Care for the Diabetic	1.15
Thomson—Chronic Rheumatic Diseases	2.75
Crowe—Arthritis and Rheumatism	2.75
Varley—Radium	1.75
Browne — Medical Electricity for Students	3.65
Cope—Clinical Researches	3.50
Mackenzie — Reports of St. Andrews, Vol 1	3.00
Mackenzie — Reports of St. Andrews, Vol. 2	3.00
Mackenzie — Reports of St. Andrews, Vol 3	3.00
Mackenzie—Gastro Intestinal Diseases	3.25
Chandler — Lipiodol in Thoracic Disease	3.50
Walker—Enlarged Prostate	4.00
Anderson—Malarial Psychoses and Neuroses	13.00
Wyard—Diseases of the Stomach	5.00
Purves — Stewart, Intracranial Tumors	3.75
Rudolf—Therapeutic Malaria	3.85
Coope—Pancreatic Disease	1.50
Rowe—Handbook for the Diabetic	2.50

PATHOLOGY

Ross—Post Mortem Appearances	$ 2.50

NEUROLOGY

Coster—Psycho Analysis for Normal People	$ 1.25
Laird — Our Minds and Their Bodies	1.00
Jackson—Neurological Fragments	3.75
Cajal — Degeneration and Regeneration of the Nervous System, 2 vols.	18.00
Henderson — Textbook of Psychiatry	5.50

SURGERY: SYSTEMS AND MANUALS

Hitzrot — Oxford Loose-Leaf Surgery, 10 vols.	$100.00
Waring—Manual of Operative Surgery	5.25
Thomson & Miles — Manual of Surgery, 3 vols., per volume	3.80
Thomson & Miles—Operative Surgery	4.75
Pannett—Gastro Duodenal Ulceration	3.25
Cushing — Intracranial Physiology and Surgery, Cloth	3.25
Paper	2.50
Cope — Early Diagnosis of Acute Abdomen	3.50
Cope — Treatment of Acute Abdomen	3.50
Jordan—Chronic Intestinal Stasis	7.50
Morison — Abdominal and Pelvic Surgery	2.75
Page & Bristow — Treatment of Fractures	4.00
Wilson—Tonic Hardening of the Colon	2.50
Crowe—Bacteriology and Surgery of Chronic Arthritis and Rheumatism	9.00
Waring — Surgical Treatment of Malignant Diseases	15.00
Sinclair—The Thomas Splint	4.50
Moynihan—The Robert Jones Birthday Volume	13.00

DENTAL SURGERY

Coleman—Materia Medica for Dentists	$ 3.25
Goadby—Diseases of the Gums	13.00
Mummery—Anatomy of the Teeth	10.50

SPECIAL DISEASES

Paul—The Carrier Problem	$ 1.75
Ker—Manual of Fevers	3.75
Gibson—The Heart	1.50
Mackenzie—Heart Affections	3.50
Mackenzie—Diseases of the Heart	9.00
Price—Diseases of the Heart	6.20
Williams—Obesity	3.35
Fitzwilliams—Tongue and Its Diseases	11.00

GYNECOLOGY AND OBSTETRICS

Tweedy & Wrench—Practical Obstetrics	$ 7.50
Kidd—Female Urethra and Cervix	2.50
Fairbairn — Gynecology with Obstetrics	8.00
Porritt—Abdomen in Labour	1.75
Fairbairn—Obstetrics	1.75
Watson — Handbook for Nurses and Midwives	4.00
Theobold—Normal Midwifery	3.15

DISEASES OF EYE, EAR, NOSE AND THROAT

Barwell—Diseases of the Larynx	$ 3.65
Tod—Diseases of the Ear	3.50
Cathcart — Treatment of Chronic Deafness	1.35
Kingham—Nursing of Eye Cases	.30
McAuliffe—Essentials of Otology	4.00
Butler—Illustrated Guide to Slit-Lamp	9.00
Crow — Ear, Nose and Throat in General Practice	3.25

MALE DISEASES

Burke—Veneral Diseases in General Practice	$ 1.75

TUBERCULOSIS

Riviere — Early Diagnosis of Tubercle	$ 4.50
Riviere—Pneumothorax Treatment	3.25
Thomson—Tuberculosis; Its Prevention and Home Treatment	.75
Girdlestone — Tuberculosis of the Hip	2.50
Perkins — Tuberculous Disease of Hip Joint	1.75
Humphris—Artificial Sunlight	3.25
Munro—Psycho-Pathology of Tuberculosis	1.75
Tylecote—Diseases of the Lungs	2.25
Tidey—Compression of the Lungs	1.00

Descriptive Circulars Gladly Sent Upon Request

OXFORD UNIVERSITY PRESS

114 Fifth Ave., New York, N. Y.

Coster—Psycho Analysis for Normal People (O. U. P.) 2249
Crile—The Kinetic Drive (S.) 8A-8B
Dana—Textbook of Nervous Diseases (Wood) 80A
Davis—Neurologic Diagnosis (S.) 8A-8B
Dawson—Aids to Psychiatry (Wood) 80A
de Montet—Primary Problems of Medical Psychology (Wood) 80A
Dercum—Physiology of the Mind (S.) 8A-8B
Diedendorf—Clinical Psychiatry (Mac.) .. 380B
Dunlap—Elements of Scientific Psychcology (M.) 56A-56B
Dunlap—Mysticism, Freudianism, Scientific Psychology (M.) 56A-56B
Dunlap—Old and New Viewpoints in Psychology (M.) 56A-56B
East—Forensic Psychiatry (Wood) 80A
Elsberg—Surgery of Spine (S.) 8A-8B
Ewen—Aids to Psychology (Wood) 80A
Fenton—Shell Shock and Its Aftermath (M.) 56A-56B
Franz—A Handbook of Mental Examination Methods (Mac.) 380B
Fraser — Clinical Studies in Epilepsy (Wood) 80A
Freud—Interpretation of Dreams (Mac.) .. 380B

KELEKET X-RAY APPARATUS WORTHY OF YOUR DIAGNOSIS

IT has stood the test. For more than a quarter of a century it has kept pace with the rapid strides of the medical profession.

The reason for this success is threefold: A consuming desire to aid in the promotion of health and the extension of life; craftsmanship on the part of men who have a reverence for accuracy and precision; and the use of the best materials in the construction of X-ray apparatus.

Every piece of Keleket apparatus, major or minor, is subjected to the most rigid tests. Only those that prove by actual practice to be a definite contribution to the profession are ever placed on the market. Here are some of them:

- Deep Therapy Apparatus
- Light Therapy Apparatus
- Radiographic Apparatus
- Fluoroscopic Apparatus
- Combination X-ray Units
- Accessories
- Everything for the Roentgenologist.
- Diathermy Equipment
- Therapeutic Lamps
  - Quartz
  - Carbon Arc
  - Infra Red
- Wave Generators
- Everything for the Physiotherapist.

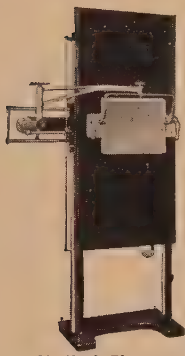
A critical examination of these will reveal that they are true to the ideals and ambitions of your profession. Successful physicians consider them silent partners in their greatest triumphs.

There is a Keleket representative in your territory

The Kelley-Koett Mfg. Co., Inc.

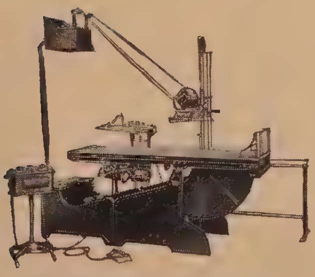
226 West Fourth Street,
Covington, Kentucky, U. S. A.
"The X-ray City"

Keleket Diathermy with Resogap Control

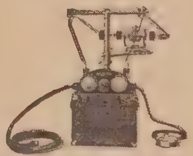


Vertical Fluoroscope

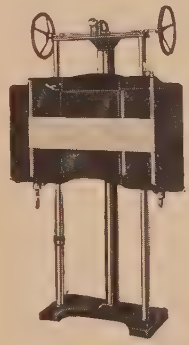
Film Viewing Cabinets mounted on filing cabinets



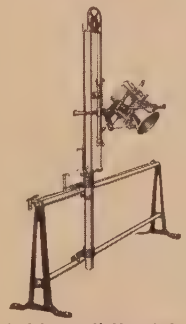
Diagnostic X-ray Unit with automatic tilt table.



Complete portable radiographic unit sufficient for diagnostic requirements



Pendulum Cassette Changer



Keleket Rail-Mounted Tube Stand

Keleket X-ray Power Plus Apparatus for ultra-fast radiography, fluoroscopy and moderate therapy.

QUALITY

The Detroit plant of Parke, Davis & Company is the largest and most fully equipped of its kind in the world.

Great as the expansion of this business has been—from very modest beginnings in 1866 to twenty-one acres of laboratory floor space in 1927, to say nothing of manufacturing laboratories in four foreign countries—great as this expansion has been, it is built on one foundation rock.

That rock is a steadfast devotion to the ideal of quality—to the ideal, in short, that all our medicinal products shall represent the utmost in desirable potency, in accurate standardization, in unwavering dependability.

And to the medical profession we owe a debt of gratitude for their unstinted recognition of the Parke, Davis & Co. label as the hall-mark of quality in therapeutic agents.

150 Pounds Pressure CRANE VALVES *2500 Pounds Pressure*

St. Joseph's Hospital, San Francisco, Cal. Crane equipped throughout. Architects, Bakewell & Brown. Builder, George Wagner. Plumbing Contractor, Alexandei Coleman.

Easing the tight bonds of funds and budgets

Dictating the plans of every modern hospital committee is an earnest wish to minister in every way to the welfare of the community it serves. One consideration alone limits this desire, and that the practical one of a building fund which is not unlimited . . . an operating budget which must be observed.

Still a convincing number of hospital committees have proved that their building funds will purchase more sanitation, convenience, and comfort, their budgets become more elastic if—before building—they advise with the Crane Hospital Service.

Armed with an understanding of hospital problems, the cumulative experience of decades, the experts who constitute this service are prepared to assist building committees in designing plumbing and heating systems that will perform every duty of safeguarding health and promoting comfort. While the materials they recommend lend themselves to unusually economical installations, and act as a protection against high operating costs, and future expenditures for repairs or replacements.

Every Doctor in the World Knows of the "STORM" Supporter

Ask for Literature

"STORM"

"TYPE N"

The "Type N" belts meet the demands of present styles in dress. They are made with a special long back and have an extension of soft material upon the hips. They can be made any height desired.

Like the regular Storm Supporter, which is so well known, the "Type N" belts have a reinforcing band attached to the body belt in front (at median line). The body belt is laced in the back and usually the reinforcing band is laced or buckled similarly to the body belt. This can be arranged differently if so desired—by sewing the reinforcing band into the back of the body belt, thus making only one set of fastenings necessary.

"Type N" belts are made without thigh straps and are fitted with hose supporters of excellent quality.

"STORM"

"TYPE A"

It is two supporting belts in one—a body part and a reinforcing band

The front of the reinforcing band is attached to the body belt in the median line. It has a relatively non-elastic portion to furnish counter-pressure to the dependent viscera and firm support for any weakened part of the abdominal wall.

This auxiliary band can be made to reinforce the support of the body band, and by changing its shape and line of attachment to body band, produce additional effects as may be needed in any condition calling for abdominal uplift.

Made for Men and Women

"STORM"

"TYPE R"

Belts of this type meet the frequent requests for "light weight belts in harmony with modern surgery." In many cases the surgeon wishes a post-operative belt which will give efficient support without the very positive uplift which characterizes the regular Storm Supporter. "Type R" belts meet exactly this requirement. They are light in weight and flexible (yet without rubber elastic). They are a boon to women who have never worn corsets and wish not to wear them.

Usually, for greatest convenience, "Type R" belts are laced in front, but this rule is variable and we make them to lace in back when so requested.

Very many young women with slight ptosis need such a belt and find it convenient, for it has excellent hose supporters attached.

These are ideal belts for wear in athletics and out-door sports, lessening the jarring of the viscera and protecting against strain.

Each Belt is made to order. Your Belt is to be made as you wish.

Petrolagar

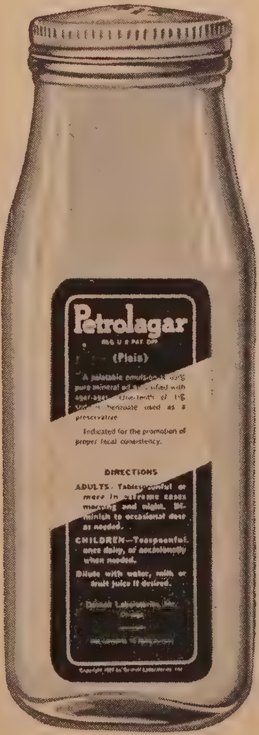
In Place of Plain Mineral Oil

Petrolagar, like milk, is an emulsion. By special mechanical processes the oil it contains (65% by volume) is reduced to infinitely small particles. These are held in this finely divided state by the indigestible emulsifying agent, agar-agar.

In the treatment of constipation, Petrolagar has many advantages over plain mineral oil—

Petrolagar is miscible in aqueous solutions. Therefore it will form a perfectly homogenous mixture with the contents of the alimentary tract.

Petrolagar is indigestible, cannot be absorbed and has no deleterious effect on digestion. It is less likely to leak and is vastly more palatable than plain mineral oil.



Petrolagar
(Plain)
DIRECTIONS
ADULTS
CHILDREN—Teaspoonful
Dilute with water, milk, or fruit juice if desired.

Write for professional trial size and literature

Types and Indications:

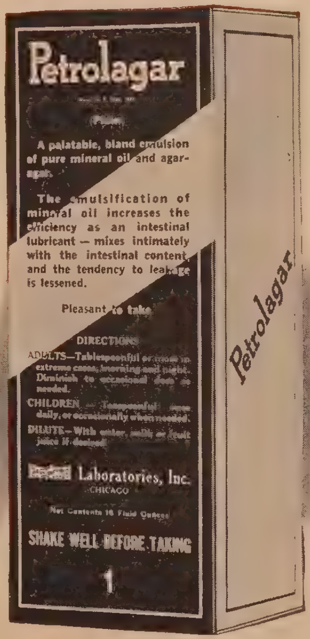
Petrolagar-Plain
No. 1 Blue Label

Petrolagar with Phenolphthalein
No. 2 Red Label

Petrolagar-Alkaline
No. 3 Green Label

Petrolagar-Unsweetened
No. 4 Brown Label

Petrolagar
Laboratories, Inc.
536 Lake Shore Drive
CHICAGO



Petrolagar
A palatable, bland emulsion of pure mineral oil and agar-agar.
The emulsification of mineral oil increases the efficiency as an intestinal lubricant — mixes intimately with the intestinal content, and the tendency to leakage is lessened.
Pleasant to take
DIRECTIONS
Laboratories, Inc.

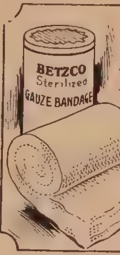
~One Source for All Your Needs!

How much time this saves; how much fretting prevented, waiting for a salesman to call; how much more convenient! Frank S. Betz Company catalogs make this saving in time and energy possible. They offer a remarkable range of merchandise, standard merchandise that can leave no doubt to the physician or hospital superintendent as to the quality of goods.

Physicians have come to know Betz through association dating as far back as 1895. The Frank S. Betz Company policy of guaranteeing every item in its catalogs, extending liberal credit, and selling equipment on a budget buying plan has won the confidence of thousands of physicians and made them friends.



SURGICAL DRESSINGS

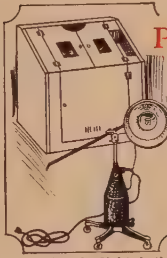
Reasonable prices are always available by telegram or letter on standard dressings of all kinds including gauze, bandages, cotton, cellucotton, cellosilk, z.o. plaster, medicated plaster, oiled silk, muslin, crinoline, waxed paper, etc.

RECEPTION FURNITURE

Beautiful fibre reception room furniture. Design and colors to harmonize with any reception room. Carload after carload of this furniture shipped because of the style, durability and low price.

OFFICE EQUIPMENT

You will find "WhiteKraft" office equipment in physicians' offices throughout United States, and many foreign countries. "WhiteKraft" steel equipment is known for its beauty of design, durableness and utility.



PHYSICAL THERAPY

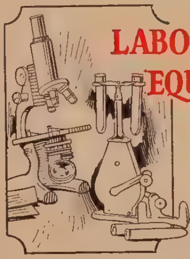
Guaranteed physical therapy apparatus, low in price and subject to 30 days free trial—carbon arc and light and heat lamps, diathermy, sinusoidal and galvanic apparatus, vibrators, bakers and electric light bath cabinets.

GOWNS *and* CLOTHING

Although reasonably priced, Betzco made clothing compares with the best manufactured. Every detail of cut, the selection of materials, the seams and appointments shows conclusively its suitability for your use.

BAGS AND CASES

Nowhere will you find a more complete selection of fine bags and medicine cases than in Betz catalogs and stores. Only the best genuine leather used. No wonder they cannot wear out.



LABORATORY EQUIPMENT

A special department is maintained for the equipment of physicians' laboratories, for bacteriology, pathology and chemistry. Large stocks of the best domestic and imported glassware, stains, reagents, microscopes and general equipment are always on hand.

ENAMEL WARE

Betzco White Enamelware is guaranteed to be free from imperfections and up to the highest standards. It is seamless, clean and smooth with a heavy coat of snow white porcelain enamel, fused on to the steel at high heat.

TRUSSES—SUPPORTERS

Betz catalogs show you how to take proper measurements to insure proper fits for trusses and supporters. Competent men and women employed in our New York and Chicago stores to fit patients you may send.

BETZCO RUBBER
SURGEON'S GLOVES

RUBBER GOODS

"Enduro" Rubber Sheeting hot water bags, ice caps, gloves, throat bags, tubing, invalid rings, operating cushions, matting, etc., to meet the most exacting requirements of heavy duty.

SURGICAL INSTRUMENTS

Exactness of workmanship, excellence of material, and beauty characterize the surgical instruments which we produce for the hospital and physician. One of the most complete stocks offered any place.

BETZCO
Sterile
Ligatures

STANDARD LIGATURES

We offer dependable brands of ligatures and sutures including Davis & Geck, Johnson & Johnson, Jaeger and Bigelow, etc. Prices quoted promptly on satisfying grades of raw catgut and silkworm gut.

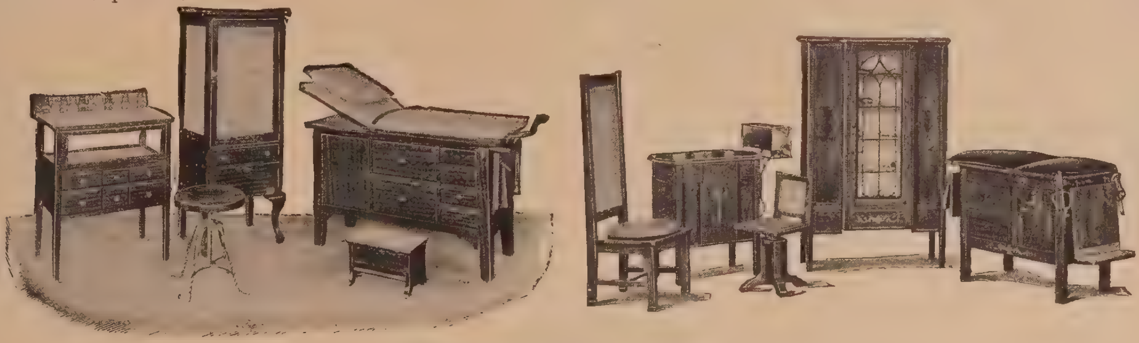
Allison Equipment Lends an Air of Dignity and Good Taste

Medical men, everywhere, are showing a greater appreciation for better office furniture. They know that it is a sound investment to have the appearance of the office reflect the ability of the doctor.

For this is a discriminating age. The patient notices the equipment of the office and is influenced by its modernity. If it is ALLISON equipment it will prove, conclusively, that the doctor is keeping pace with the progress of the age in medical practice.



Matched Office Suites

ALLISON matched office suites are looked upon as Builders of Good Will and as an ethical way of advertising.

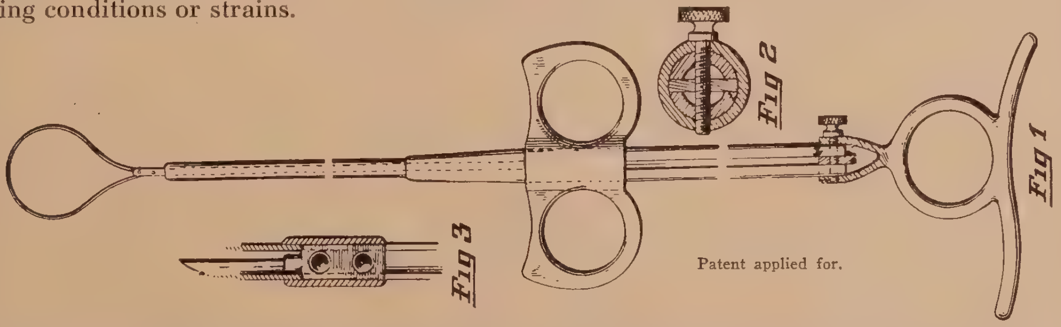
TWIN BALL *Tonsil Snare*

EVES'-LANGBEIN MODEL

Every operator has experienced the annoyance of having a snare jam in such a way that it is almost impossible to work it back or forward. With the ordinary snares this is a common occurrence.

The "TWIN-BALL" SNARE is *Ball-Bearing* and cannot lock or bind under the most trying conditions or strains.



Correctly designed, carefully constructed of the finest tool steel, hardened at the points where strains are brought to bear, the Thumb and Finger Ring being *Forged of Special Bronze*—not cast. The "TWIN-BALL" SNARE has exclusive features of unusual merit.

Fig. 2—Shows Method of Fastening Thumb Ring for Stability. **Fig. 3—Shows Ball Bearings for Easy Action, Eliminating Jamming.**

Chrome Plated, $10.50 Each. ***May We Send You One on Approval?***

M. BURNEICE LARSON
Director
The MEDICAL BUREAU

What About—?

"NO MAN should change his location or vocation after he is 40 years of age, unless he is a horse thief—then he should change both," quoted the head of a well-known medical organization.

But what about the x-ray specialist who in his later years discovered that he was becoming radio sensitive?

What about the surgeon who, because of losing his only child, felt that for the sake of alleviating his wife's grief he should move to another city?

What about the eye, ear, nose and throat specialist who, because of illness in his family, felt it necessary to move to another section of the country?

What about the capable tubercular specialist who, because of lack of educational facilities, wished to move near a university center where his family of five could be educated with a moderate amount of expense?

What about the busy surgeon who, investing heavily in real estate and losing, felt he should move where his social obligations would not be so heavy?

What about the physician who, to pay his school debts, entered country practice? His family came and he was unable to move until his 40's. What about him?

There are a hundred reasons why a well-trained, capable man past 40 should be on our list.

MAKE THE
NIGHT
TEST

Send for the free quarter-pound of Sanka Coffee and judge for yourself how fully the effects of caffein have been minimized . . . .

PROBABLY you have long sought a beverage that is free from caffein effect, yet which has coffee's age-old power to satisfy.

If so, then your search is at an end. Send for the free quarter-pound package of Sanka Coffee—genuine, delicious coffee with the effects of caffein minimized.

When you receive the package of Sanka Coffee, make the night test. Take your first cup of it at night. Next morning you will know, from actual experience, that you have discovered a delicious coffee that you yourself can drink—that your patients can safely take—morning, noon and night—without ill-effect and without regrets.

Genuine, delicious coffee

Sanka Coffee is all coffee—nothing but coffee—a delightful blend of the choicest Central and South American coffees. The decaffeination process takes place before the coffee beans are roasted, leaving undisturbed the spicy flavor, the fragrant aroma—everything that makes coffee "the beloved beverage." This is scarcely less important than the fact that the effects of caffein have been minimized. For, as you will discover, the delicious flavor of Sanka Coffee transforms the avoidance of caffein from a hardship into a three-times-a-day delight.

Send for the free quarter-pound of Sanka Coffee. With it we shall be glad to foward a copy of "The Passing of 'Thou shalt not'"—a more complete discussion of Sanka Coffee and its relation to modern dietetic needs. Simply address the Sanka Coffee Corporation, 1 Joralemon Street, Brooklyn, N. Y.

UVIOL-JENA

Reg. U. S. Pat. Off.

Ultra-Violet Ray Transmitting Window Glass

Manufactured by

Jena Glass Works Schott & Gen. Jena, Germany

Makers of Optical, Scientific and Technical Glassware Since 1884

The profession recognizes the SUN'S curative powers particularly in the Ultra-Violet Region, the so called "Biological" Rays.

Uviol-Jena in its standard thickness of 2 mm. transmits about 60% of these "Biological" Rays of a wave-length of 302 mμ.

Uviol-Jena **even after solarization** transmits between 48 and 45% of these same Health Rays.

Uviol-Jena is sold in three (3) qualities—Clear, Cathedral and Unselected.

Interesting Booklet upon request by:

FISH-SCHURMAN CORPORATION

Sole Agents for the U. S. A. and Canada

45 West 45th Street - - - NEW YORK

MERRELL-SOULE Products

Keep Indefinitely

SPECIALLY packed by a process which assures the quality of keeping *indefinitely,* Merrell-Soule Powdered Protein Milk, Powdered Whole Lactic Acid Milk, and Klim are at all times obtainable fresh, pure, and ready to use.

This Merrell-Soule group comprises fundamental bases and accepted adaptations—not complete formulae, combinations or "baby foods." Each product fits into the modern and scientific system of infant feeding by which formulae are created by the *physician*—not by the manufacturer.

The Merrell-Soule system of dehydration preserves the nutritive values of the original, expertly made fluid equivalents. Scientific control assures unmatched uniformity and bacteriological purity. Greater digestibility is imparted by the breaking up of fat globules and casein. All claims for Merrell-Soule Milk Products are supported by clinical tests.

Columbia University-Presbyterian Medical Center, Worlds Largest hospital group, has two "Hindle" Electrocardiograph equipments.

Model No. 3 Mobile Type

"Hindle" Electrocardiographs

FIFTEEN YEARS' experience in the development and manufacture of the Electrocardiograph is embodied in four available models. Every practical requirement of the large or small hospital, clinic, research laboratory or private office is thus provided for.

Model No. 1. For those institutions doing research work.

Model No. 2. For the large hospital.

Model No. 3. Stationary type. For the clinic, small hospital or private office. **Mobile type.** For hospital use. This equipment can be wheeled from room to room.

Cambridge Portable Model. A completely self-contained instrument. Can be carried to patient's home or from building to building in the hospital group.

THE MONEY IS YOURS
—why not get it?

Allowing your account to drag along doesn't help the debtor—it increases his burden—and why lose money you have honestly earned?

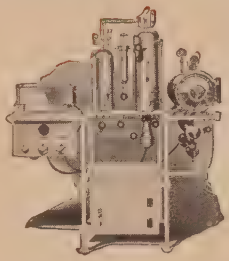
You can save yourself from financial loss by a resultful method that keeps patients friendly; that has met the exacting requirements of your profession for more than 16 years. We have no "contract." You pay a moderate commission for services actually performed.

May we send you interesting facts and figures about this unusual service? Also a liberal supply of our Physicians' Collection Stickers? No obligation, of course.

ARROW SERVICE
Arrow Bldg., Schenectady, N. Y.

"The money comes direct to you"—

AMERICAN STERILIZERS
"The Product of Specialists"



There's an AMERICAN Sterilizer for every purpose, from the smallest portable-electric Instrument Sterilizer to the largest (7½-ton) AMERICAN Kinyoun-Francis Steam and Formaldehyde Disinfector.

The order for a single sterilizer is assured the same care, in every detail, as the one that provides for completely equipping a new hospital.

Write for our Bulletins—especially for the one with prices that covers the unit here illustrated.

Whenever you have anything to do with the planning of sterilizer equipment, write us for assistance. In doing this you incur no obligation.

An AMERICAN Combination for Physicians and Surgeons that makes the private office as safe as the hospital for minor operations.

For Infants deprived of breast milk

WHAT

is S. M. A. ?

S. M. A. is an adaptation to breast milk which resembles breast milk both physically and chemically.

S. M. A. in addition to giving excellent nutritional results in most cases, also prevents nutritional disturbances such as rickets and spasmophilia.

S. M. A. requires no modification or change for normal infants. As the infant grows older the quantity is merely increased.

S. M. A. requires only the addition of boiled water to prepare.

(Orange juice, of course, should be given the infant fed on S. M. A. just as it is the present practice to give it to breast-fed infants.)

WHY

was S. M. A. developed?

Because there is a real need for an adaptation to breast milk which will give satisfactory nutritional results in the great majority of cases, which includes the preventive factors, and which is, at the same time, so simple to prepare that the physician can rely on the mother to follow his directions accurately.

WHO

prescribes S. M. A.?

It is our conviction that every infant deprived of breast milk should have his feeding supervised by a physician. Therefore, no directions are given on the cans. Instead, every can bears this statement:—"Use only on order and under supervision of a licensed physician. He will give you instructions."

Adapted to Breast Milk

HOW

is it possible to feed S. M. A. to infants from birth to twelve months of age without modification or change?

The answer to this question sounds the keynote of the success which thousands of physicians are having with S. M. A. It is not necessary to modify S. M. A., for *the same reason that it is not necessary to modify breast milk*—for S. M. A. resembles breast milk not only in its protein, carbohydrate and salt content, but *also* in the character of the fat. Since the very young infant can tolerate the fat, as well as the other essential constituents, in S. M. A., it is possible to give this food in *the same strength,* to normal infants *from birth to twelve months of age.*

As the infant grows older, therefore, it is only necessary to increase the *amount* of S. M. A.

WHEN

should S. M. A. be prescribed?

S. M. A., should be used as a food for infants of any age, either when breast milk is not available at all or as a supplement to breast milk.

Since S. M. A. is very closely adapted to breast milk it should be used when the infant is still well, or in the milder type of malnutrition in infants.

S. M. A. should never be used when the infant has diarrhea, because, being similar to breast milk, it contains too high an amount of sugar and fat for such cases. For diarrheas write for instructions for the use of Protein S. M. A. (Acidulated).

WHICH

form of S. M. A. should be used?

(Both forms have the same composition when diluted according to directions and ready to use—and both forms therefore give equally satisfactory results in practice.)

Concentrated Liquid Form

This form is the simpler to prepare, and is, therefore, preferable when there are adequate cooling facilities, and where the infant is using a liquid quart of the food in 24 to 48 hours.

Powder Form

This form should be used where there is no ice box, or whenever it is desirable to prepare small quantities at a time, as in starting feedings, giving supplementary feedings, or in traveling.

WHERE

can S. M. A. be obtained?

If your retail druggist does not have S. M. A. on hand, he can get it for you on short notice, since every large wholesale druggist in your vicinity keeps it in stock.

If you have never used S. M. A., we shall be glad to send you a supply free of charge. If you *have* used S. M. A., we will send you an additional supply just as gladly, since we will, in this case, interpret your request as indicating that you would like to observe results further.

S. M. A. is manufactured by The Laboratory Products Co., Cleveland, Ohio, by permission of The Babies and Childrens Hospital of Cleveland.

Do you face

A PLACEMENT PROBLEM?

Superior Personnel

Physicians, Surgeons, Dentists, Assistants, Graduate Nurses: Surgical Anesthetist, General Duty, Industrial, Public Health

Dietitians, Laboratory Technicians, X-Ray Technicians, Chemists, Pathologists, Bacteriologists, Teachers, Directors for Medical Schools

Hospital Executives, Consultants, Instructors, Superintendents, Supervisors

Occupational Therapists, Social Service Workers, Child Welfare Workers

Historians, Recorders, Medical Secretaries, Dental Hygienists, Receptionists

Partners Furnished, Desirable Locations Found, Practices Sold

Almost overnight a community may be bereft of its physician; without notice the busy hospital may lose one of its most valued specialists; in an emergency an anxious doctor may require a competent nurse. Other instances may occur when there is genuine and immediate need for the best services possible.

That is the purpose of the Allied Professional Bureaus, Marshall Field Annex Building, Chicago. It unites the interests of both the employer and the candidate through its service in placing professional men and women in all branches of medicine and research work. The highest standards are maintained for both applicant and employer. Applications for membership are carefully investigated, and only those persons with the highest qualifications and ethical standing are registered. Thorough investigation is also made of openings before they are accepted for placing applicants.

By reason of the direct contacts of the Allied Professional Bureaus, we are at all times accurately informed on the immediate and future possibilities in the various branches of the profession. There is no charge to the employer. Prompt, efficient, and reliable service is given. The Allied Professional Bureaus has on its registry the skillful, dependable, trained men and women who are peculiarly fitted for that service to which they are called.

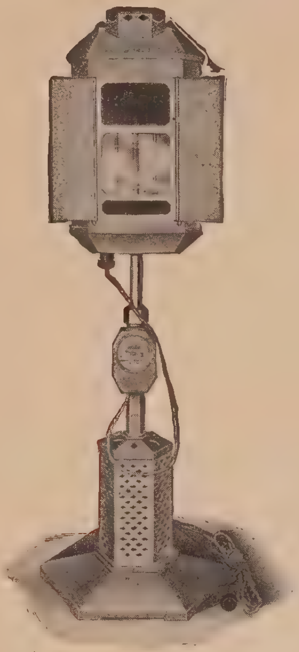
Physicians can now prescribe Sunshine in the home



EVEREADY Sunshine Lamp

The Eveready Sunshine Lamp burning Eveready Sunshine Carbons produces a light containing all the essential rays of sunshine in practically true proportions. The special glass filter panel eliminates all radiation of wave lengths shorter than those found in natural sunlight.

If you wish to place your patients under therapeutic light, as distinct from sunshine, you can order the removal of the filter in the lamp and your patient can buy Eveready Therapeutic Carbons on your prescription.

In our advertising to the public we emphasize that no attempt to correct any abnormal physical condition by light should be made without a physician's advice.

This careful, ethical policy has been acknowledged as acceptable by the Council on Physical Therapy of the American Medical Association.

Carbons

Eveready Sunshine and Therapeutic Carbons are unsurpassed as generators of special light radiations from the short ultra-violet through the long infra-red. They are manufactured under close technical supervision. The standardization and uniformity of their characteristics is thus assured.

Sunshine Carbons are sold without restriction to the public. Therapeutic Carbons, for use by the physicians, are available through medical supply houses, or may be purchased by the layman on physician's prescription.

The EVEREADY SUNSHINE LAMP and EVEREADY SUNSHINE CARBONS are sold by Medical Supply Houses, Department Stores and Electrical Specialty Dealers in all cities.

EVEREADY THERAPEUTIC CARBONS are sold only through Medical Supply Houses.

Complete information regarding these products will be supplied on request.

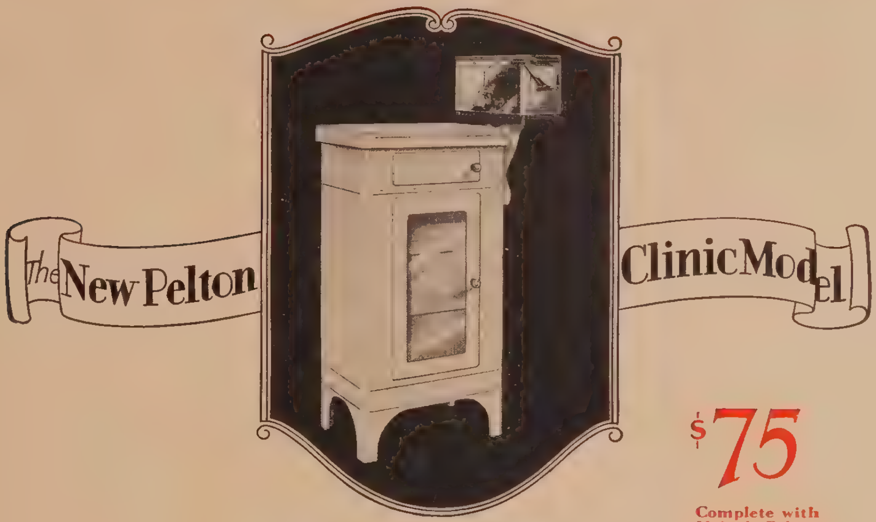
PELTON EQUIPMENT IS PROVEN EQUIPMENT



$75

Complete with 11-inch Pelton Thermatic Sterilizer.

here is a Sterilizer you will be *proud* to show

Patients look for your Sterilizer, unconsciously seeking its assurance of safety . . . Naturally you will display it more prominently if the Cabinet is attractive, inviting, and a pleasing change from the ordinary . . . The New Pelton Clinic Model is such a Cabinet . . . Besides good looks, it has a body complete in one piece (*including* the legs), invisible door hinges, raised moulding on front and sides, and plate glass shelves . . . The New Clinic Model, in fact, strikingly combines handsome appearance and practical features of commonsense utility . . . If you need a new Sterilizer, put in the New Clinic Model and enjoy the daily satisfaction of its beauty and efficient service . . . Remember the name—*Pelton Clinic Model*—and the price—*$75 in white*—when your supply house salesman calls.

If you already own a Pelton Sterilizer, it will fit the New Clinic Model Cabinet, which you can buy without a Sterilizer for $40 in white finish.

The New Clinic Model is also available with a 14-inch Sterilizer, at $78, and with a 16-inch Sterilizer, at $82. Complete details mailed on request.

"How much does it cost?"

IN making an investment in X-ray or physical therapeutic equipment, it is well to remember that the dollar is but a unit of purchasing power. The point to be most carefully considered is not how many dollars are involved in the original purchase order, but what value is received for each dollar invested, from the standpoint of diagnostic or therapeutic end results.

The test of whether or not cheaper equipment really is cheaper comes in the years and quality of the service the equipment gives. Note the overwhelmingly greater number of competitive units that are traded in by physicians for Victor equipment; the comparatively small number of Victor units (almost none) that are traded in for competitive makes. This situation tells you the truth of the matter.

When physicians say, as many do, about Victor equipment purchased ten years ago, that "it is in as good working order as the day when installed," or that "no electrical equipment I ever purchased has given me as much real service," then you realize why, after all, Victor equipment means real economy in the long run.

A lower priced apparatus is indeed costly when the efficiency sacrificed may mean the difference between therapeutic success and failure.

LACTOGEN resembles normal human milk

→ Naturally ←

because, like human milk, all its ingredients are the natural nutritive elements found in milk.

	HUMAN MILK	LACTOGEN
Fat:	Milk Fat	Milk Fat
Carbohydrate:	Lactose	Lactose
Protein:	Milk Protein	Milk Protein
Ash:	Milk Mineral Salts	Milk Mineral Salts

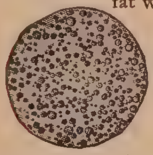
→ Chemically ←

because the proportion of its chemical constituents corresponds closely to that of normal human milk.

	HUMAN MILK	LACTOGEN
Milk fat	3.5%	3.12%
Milk sugar	6.5%	6.66%
Milk protein	1.5%	2.02%
Milk salts	.2%	.44%

→ Physically ←

because its fat globules have been physically broken up by homogenization to enable the infant to assimilate the fat without difficulty.



COW'S MILK
(magnified 180 diameters)
Note the large fat globules. These make the digestive process difficult. Some babies cannot assimilate them successfully.

LACTOGEN
(magnified 180 diameters)
Note how the process of homogenization has reduced size of fat globules. Babies assimilate these small globules far more easily.

→ Nutritively ←

because when diluted for infant feeding, its caloric value is the same as that of a good sample of human milk — 20 calories to the ounce.

"Human milk yields 20 calories per ounce."—*L. Emmett Holt, Diseases of Infancy and Childhood, p. 178*

"Lactogen, when diluted, yields 19.4 calories per ounce."
—*McLean & Fales, Scientific Nutrition in Infancy and Early Childhood, p. 162*

SAMPLES of Lactogen and literature will be gladly sent to physicians. Address your request to—

NESTLÉ'S FOOD COMPANY

2 Lafayette Street New York City

Metabolism Apparatus
As Made by
Warren E. Collins

BENEDICT-COLLINS METABOLISM APPARATUS—

An improved metabolism apparatus of the motor-blower type developed at the Carnegie Nutrition Laboratory.

BENEDICT-ROTH METABOLISM APPARATUS—

A modification of the Benedict apparatus in which respiratory valves take the place of the motor-blower. Devised by Dr. Paul Roth of the Battle Creek Sanitarium and endorsed by prominent investigators everywhere.

BENEDICT STUDENT METABOLISM APPARATUS—

A small inexpensive metabolism apparatus designed primarily for instructing students in the principles of metabolimetry.

COLLINS "RECORDER"—

An approved kymograph designed especially for the Benedict and Roth apparatus, it records graphically in ink the respirations and the B. M. R.

COLLINS "CHAIN-COMPENSATED" GASOMETER—

An improved gasometer — very sensitive and simple. The old water syphon tube, or eccentric wheel has been eliminated. Recommended for research and general laboratory use.

BENEDICT RESPIRATION APPARATUS—

All types including Calorimeters, Cot Chambers for adults and for children and Baby Chambers. Animal apparatus including chambers for cattle, sheep, dogs and rats. Respiration tables for these chambers, both universal and adiabatic.

OXYGEN THERAPY APPARATUS—

A new apparatus just perfected for the treatment of pneumonia as described by Dr. Paul Roth of the Battle Creek Sanitarium and Dr. Alvan L. Barach of the Presbyterian Hospital in New York City.

This apparatus made exclusively by Warren E. Collins, formerly associated with the Carnegie Nutrition Laboratory in Boston from 1908 to 1920, in the construction and development of respiration apparatus of all types.

WARREN E. COLLINS, Inc.
Specialist in Metabolism Apparatus
555 Huntington Ave. Boston, Mass.

The NEURO-MYOSTAT

(TONISATOR)

At last a simple, inexpensive apparatus which enables the General Practitioner to give a wide variety of Physio-Therapy treatments, without the necessity of special training. Developed by the Viennese Physician Dr. S. Ebel, carefully tested and endorsed by such men as Dr. Albert Lorenz, Dr. Jos. Halban, Dr. Heinrich Neumann, Dr. Clemens Pirquet and Dr. Julius Wagner-Jauregg, the instrument has been adapted for American Practice by Edward Lasker, the inventor of the Electric Breast Pump, and it is now in use in some of the leading Hospitals and in the offices of some of the best known men, replacing a number of the expensive older instruments which do not remotely approach the new apparatus in clinical results.

For medical literature and detailed information write to:

Indicated in the treatment of a wide range of affections of

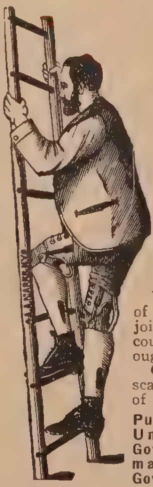
MEDICAL SPECIALTIES MANUFACTURING CORP.

300 FOURTH AVENUE, NEW YORK

He Has Two Good Legs

BOTH MADE BY MARKS



Although a man may lose both his legs, he is not necessarily helpless. By using artificial legs of MARKS PATENT he can be restored to usefulness. One of these engravings is from an instantaneous photograph of a man ascending a ladder. He has two artificial legs substituting his natural ones, which were crushed in a railroad accident. With MARKS PATENT Rubber Feet with Spring Mattress he can ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can work at a bench and earn a good day's wages. He can walk and mingle with persons without betraying his loss; in fact, he is restored to himself for all practical purposes.

With the old method of complicated ankle joints, these results could not be so thoroughly attained.

Over 60,000 in use, scattered in all parts of the world.

Purchased by the United States Government and many Foreign Governments.

Send for MANUAL OF ARTIFICIAL LIMBS, containing 300 pages, with 600 cuts. Instructions are given how to take measurements and obtain artificial limbs without leaving home.

Established 75 years.

The NONSPI Company
2654 Walnut Street
Kansas City, Missouri

There is a

GOVERNMENT STANDARD

FOR MALTED MILK

UNCLE SAM requires that malted milk contain a minimum of certain ingredients in certain proportions. Such regulations are necessary because of the wide-spread use of this highly nourishing and appetizing food-drink, and because a few have tried to profit unjustly by offering the public products deficient in essential food elements. Since William Horlick's invention in 1883, other products called malted milk have come on the market—

But only Horlick's

—*the original*—Malted Milk is made to meet the maximum standards of ingredients and process which have given this product world-wide reputation. Materials used in Horlick's Malted Milk are selected with the greatest care. But there are included in its manufacture three factors not covered by government requirements. They are the skill, the integrity and the enthusiasm of the firm behind the product.

Look for the Horlick Trade-Mark

For nearly half a century, the trade-mark of the House of Horlick has stood for quality and integrity in the field of malted foods. Look for this trade-mark—the Horlick Cow—on the package, that you may be sure it contains the best that can be produced from the best ingredients.

One way to be Certain

Horlick's Malted Milk is sold in hermetically-sealed glass jars. Insist on the original package, protected by the Horlick label and trade-mark. Thus you may be sure you are getting net nutrition in its highest and most delicious form. For samples, address—

HANDBOOK OF THERAPY

1928 Revision

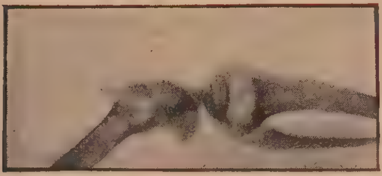
New material on Influenza, Diabetes, Thyroid, Arthritis, Tuberculosis, Scarlet Fever

A compendium of medical facts for daily use and quick reference. Edited by Osborne and Fishbein. Now in its eighth edition. Contains the progressive and accepted methods of treatment for the conditions commonly met in general practice. Rules, formulas, suggestions, prescriptions for direct application. More than 150 diseases discussed.

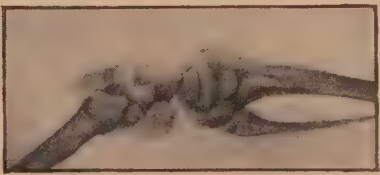
660 Pages
$2.50

AMERICAN MEDICAL ASSOCIATION, CHICAGO

Scientific test proves anti-rachitic action of NESTLÉ'S MILK FOOD



X-ray photo of rat's knee joint showing rachitic development following one month's exclusive feeding on rachitic diet No. 2966.



X-ray photo of same joint taken 12 days later, showing calcification following the addition of 10% Nestle's Milk Food to the rachitic diet.

. . . . A report by Professor E. Poulsson of the Pharmacological Institute, University of Oslo, Norway

"I BEG to give you below particulars of the technique used for the examination of the anti-rachitic effect of the preparation received marked "Farine Nestle H:C 6" (Nestlé's Milk Food).

"49 young rats, when they reached a weight of about 50 grammes, were put on the rachitis-producing diet of Steenbock & Black, No. 2966, composed of:

Yellow corn	71%
Wheat gluten	20%
Gelatine	5%
$CaCO_3$	3%
NaCL	1%

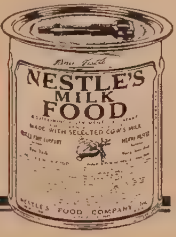
"All the animals readily ate this food and showed at the weekly weighings strong and regular increase in weight. (This is of importance; without sufficient growth rickets will not be produced.) After somewhat more than one month the animals showed the development characteristic for rickets. For the purpose of control, 9 animals were killed by chloroform and examined. All of these proved to be suffering from advanced rickets (broad and soft diaphyses, swollen joints, beaded ribs). Six groups, each consisting of 4 animals, were then tested as follows: 8 animals were given an addition of 10%, 8 animals an addition of 20%, and 8 animals an addition of 50% of Nestlé's preparation to the rachitis-producing diet. All the animals, even those which had received an addition of only 10%, showed after 9 days positive "Line Test" (commencing calcium deposition in the epiphyses; see E. V. McCollum, Nina Simmonds, P. G. Shipley and E. A. Park, 'The Journal of Biological Chemistry', vol. 11, 1922).

"From the above it is evident that the preparation tested, when added to a rachitis-producing diet, even in the proportion of 10%, has a marked anti-rachitic action, as the commencing curative effect could be proved after 9 days."

(Signed) E. POULSSON

Samples of Nestlé's Milk Food and literature gladly sent free of charge to physicians, together with celluloid feeding table calculator. Address your request to *Nestlé's Food Co., Inc., Dept. 16-F-29, 2 Lafayette St., New York City.*

NESTLÉ'S *milk food*



Cameron's Diagnostic Lamps and Instruments

THE illustration of Cameron's Headlite, above, shows the efficiency with which every instrument in the Electro-Diagnostoset does its part in providing Direct Illumination, Accurate Diagnosis, Simplified Technique, Searchlight Transillumination and Improved Instrumentation. Every lamp and instrument provides concentrated pure white illumination equivalent to 150 c. p. and reveals the field of diagnosis or operation in all of its detail and its actual color and condition.

The complete Cameron's No. 6-A Electro-Diagnostoset is supplied in genuine leather case containing 5-in-1 (Red Free) Ophthalmoscope, Striascope for Refraction; Spudlite with 3 different spuds; Diagnostoscope for Ear and Nose; Mastoidlite; Oralite; Electro-Tonsil assistant; Headlite with Binocular Prism Loupe; Set of 3 Diagnostic Lamps; Post-Nasal and Laryngoscopic Mirrors; Set of 2 Surgilites; Parietractor; Proctoscope; Sigmoidoscope; Anoscope; Electro-Urethroscope; Skenescope; Vaginalite; all Accessories; Extra Lamps; Special Current Controller and Battery, with Boilable Cords.

This No. 6-A Equipment contains the complete set of instruments for general hospital and medical practice. Smaller combinations can be supplied to meet the more limited requirements of the specialist.

WRITE for TREATISES on HIGH VISIBILITY in DIAGNOSIS, TRANSILLUMINATION and INSTRUMENTATION in your particular field of work. Specify what field of practice you are specializing in, and we will be glad to send you valuable Treatises on Technique without any obligation or charge.

Other equipment made by Cameron: Cameron's Cauterodyne (Radio Frequency); Cameron's Electro-Cautery; Cameron's Thermaloop Cautery; and Cameron's Vitalitester for testing the vitality of Pulps of Teeth.

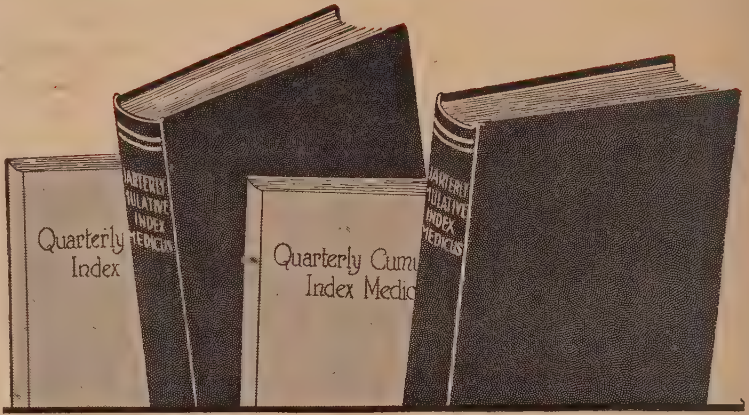
"the best single fount of reference"

—Comes the word from a Chief Surgeon in a far-off Country

QUARTERLY CUMULATIVE INDEX MEDICUS

Whether you be called to an isolated corner of the world where you are the sole guardian of community well-being, or whether to a thriving industrial center—wherever you be, the INDEX is virtually indispensable, if you would keep apace with the world's current medical advance. It is a ready assistant giving you instantly the references to current medical articles on any subject of interest.



Quarterly Index
QUARTERLY CUMULATIVE INDEX MEDICUS
Quarterly Cumu Index Medic
QUARTERLY CUMULATIVE INDEX MEDICUS

Complete and Ready Reference

It is one all-embracing index to the important medical journals of the world. The articles indexed represent annually some 50,000 titles found in more than 1400 periodicals. Through such definite references, selective reading is made possible.

Convenient Index Is Time Saver

Authors and titles appear in one complete alphabetical compilation. Refer to the author and the title is listed; refer to the title and the author is included. The INDEX also contains a list of all journals indexed which include domestic and foreign publications as well as high grade lay periodicals; list of publishers and addresses, and medical books of the year alphabetically listed according to subject and author. So compact and thorough is it that in the minimum amount of time the user can find references to the new ideas applying to his particular problems.

Why YOU Need It

It is a time saver and a practical systematizer.

It keeps you in touch with the progress of medical science.

It aids in solving baffling problems through its references.

It indexes your own Journals and increases their library value.

It is an efficiency expert and promotes the advance of medical science.

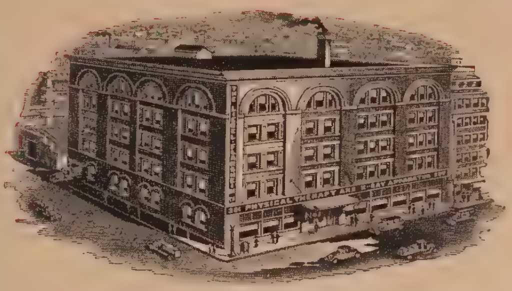
American Medical Association
535 North Dearborn Street
Chicago

An Assistant to the Medical-Minded

The INDEX extends its service to every field of the medical world. Physicians, surgeons, specialists, chemists, alienists, biologists, editors, teachers, students, nurses, writers, research workers, libraries. Its scope is world wide; its interest, universal.

The Index Is Cumulative

Published four times a year—April, July, October and January, the July and January numbers of the INDEX are bound in cloth for permanence. They contain all references for the year up to their publication date, making it unnecessary at any time to consult more than one volume for a six months' period. The INDEX can be worth far more than its cost whether you have access to only half a dozen journals or to the most extensive library. The subscription price per calendar year is $12.00.



The Plant Behind the Product

X-Ray —Fluoroscopic and radiographic apparatus.

Diathermy —Electro-coagulation and desiccation equipment.

Important Announcement to Cystoscope Owners

FOR approximately 25 years the American Cystoscope Makers, Inc., (A.C.M.I.) have produced cystoscopes and other electrically lighted diagnostic instruments for the Medical Profession.

These instruments have always been identified by our trade mark and have been distributed through the Wappler Electric Co., Inc.

Effective September 15th, 1928, the American Cystoscope Makers, Inc. (A.C.M.I.) established their own distributing and repair services, which are now functioning in a very satisfactory manner.

Information about, or repair service for, any cystoscope or other instrument bearing the A.C.M.I. trade mark may be had by referring directly to American Cystoscope Makers, Inc., 450 Whitlock Ave., New York City.

In so doing please mention your regular surgical instrument dealer from whom A.C.M.I. instruments will be obtainable hereafter.

Why have doctors prescribed

DRYCO

for so many years and continue to do so?

Because

IT IS milk in a most digestible form and is well-borne by those infants brought to them for the reason that they have not done well on other foods.

No milk-borne infection has ever been traceable to DRYCO.

Samples and data upon request.

Can You Always Expect Definite Results From the Drugs You Use?

Emphatically yes—if you administer ZEMMER pharmaceuticals

We manufacture MEDICAL PRODUCTS especially to supply DISPENSING PHYSICIANS

Dispensing our preparations positively removes all uncertainty. Choose your drug combinations from our catalog—carefully and repeatedly test the clinical efficiency of our products—your confidence in our preparations will be established—you will know our drugs give definite therapeutic results.

Every product which bears the ZEMMER LABEL is a guarantee as to

Accuracy of Dosage
Perfect Purity
Full Potency
Palatability
Uniform Composition
Definite Physiologic Activity

Private dispensing has many advantages:

(1) Your medication is under your personal observation and control.
(2) Treatment may be begun immediately upon making a diagnosis.
(3) Medicines may be changed quickly as indicated.
(4) In emergencies and night visits, treatment is at your immediate command.
(5) It gives the patient confidence in you.
(6) You know the drugs your patients take—"substitution" does not trouble you.

In our price list we describe a large number of valuable U. S. P. liquid combinations, tablets, ampules, capsules, ointments, syrups, elixirs, etc. — each one properly labeled for private dispensing. All orders are filled from absolutely fresh stock and shipped direct from our laboratory to the office of physicians anywhere in the U. S. A.

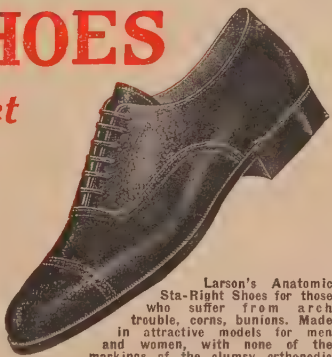
MADE-TO-ORDER SHOES

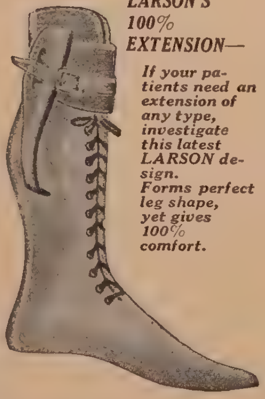
for Painful and Deformed Feet

you can fit your patients perfectly with orthopedic shoes and appliances by ordering by mail from MARTIN LARSON & SON. For 35 years Martin Larson has studied feet that demand individual shoes and this painstaking study has resulted in footwear inventions welcomed by both physician and patient.



Larson's Anatomic Sta-Right Shoes for those who suffer from arch trouble, corns, bunions. Made in attractive models for men and women, with none of the markings of the clumsy orthopedic shoe.

Made from Plaster Casts



LARSON'S 100% EXTENSION—

If your patients need an extension of any type, investigate this latest LARSON design. Forms perfect leg shape, yet gives 100% comfort.

In all MARTIN LARSON footwear, personal supervision assures the correct construction of shoes you order. All our products are made to individual measure from plaster paris casts. We make these shoes exactly as you prescribe, in styles that please the patient. We will be glad to send any physician instructions, free of charge, for ordering shoes and appliances by mail.

Made-to-Order Shoes, $25.00 — With Cast, $35.00 and up.
Arch Supports, $10.00 — With Cast, $20.00.
Extension Prices, $25.00 and up.

The M. L. Protector for those who want to wear their regular shoes. Builds up the muscles by exercising them.

HABITUAL CONSTIPATION
Its Causes, Consequences, Prevention, and Rational Treatment

By ISMAR BOAS, M.D.
Eminent German Authority on Intestinal Diseases
Translated into Non-Technical English

By THOMAS L. STEDMAN, M.D.
Author of "A Practical Medical Dictionary" and Formerly Editor of The Medical Record

A most encouraging and enlightening manual. It will appeal not only to the public in general but also to physicians, nurses, and dietitians.

"Dr. Boas has handled the subject in such a clear and concise manner that it can be read and easily understood, not only by the physician, but by the layman as well. His diet lists for various disorders associated with constipation are especially valuable."—**Louis M. Gompertz, M.D., New Haven, Conn.**

"An admirable work. I hope Dr. Stedman's very competent translation may have a wide circulation."—**Dr. John C. Hemmeter, Baltimore.**

Medical Visitors to New York

The New York Academy of Medicine desires to extend a welcome to all members of the medical profession who may visit New York. It offers its facilities in the hope that they may be helpful in making the visitors' stay both pleasant and profitable.

The Library (open from 9 A. M. to 10: 30 P. M.) is one of the largest of its kind in the United States. It contains upwards of 140,000 books and theses, and over 100,000 pamphlets, which are fully catalogued. Its files of American and foreign periodicals are very complete. There is a bibliographical and photostat service available for visitors at the usual library rates.

Meetings. Besides two stated meetings of the Academy held each month, there are monthly meetings of the twelve different groups of Fellows organized into sections devoted to various branches of medicine and surgery and to historical and cultural medicine. In addition to these meetings, many medical societies of the city hold their meetings at the Academy. There are usually one or more meetings held at the Academy each night of the month except Sundays and holidays.

Lectures. A series of practical lectures is given each year on Friday afternoons, beginning in November. Lectures on public health and other subjects of current medical interest are frequently held.

An Annual Graduate Fortnight is held each year during the first two weeks of October, consisting of a series of lectures and coordinated clinics, clinical demonstrations and courses in hospitals and teaching institutions on a subject which is of outstanding importance in the practice of medicine and surgery.

All meetings and lectures held at the Academy are open to the profession generally and to medical students.

Bureau of Clinical Information. The bureau is maintained by the Committee on Medical Education. It offers detailed information regarding opportunities for graduate medical study in New York and other cities of the United States and Canada, and in European centers. The Bureau has prepared a guide in which the opportunities for clinical study in the hospitals of the city are listed and described. It also publishes a daily bulletin of operative clinics of the city and a weekly bulletin of nonoperative clinics and conferences, to which all physicians are welcome. Physicians are invited to make the Bureau their headquarters while in the city. Fifth Avenue and 103d Street.

Creighton University School of Medicine

ADMISSION: The requirements are those prescribed by the Association of American Medical Colleges; in brief, fifteen high school units and two years in an approved college, with satisfactory courses in physics, chemistry, biology and English.

APPLICATIONS: As the number of students is limited, applications should be made in June. Preference will be given to applicants having more than the prescribed credits. The grades obtained in premedical work must show satisfactory scholarship.

LABORATORIES AND CLINICAL FACILITIES: The laboratories are adequately equipped. St. Joseph's Hospital of 500 beds affiliated with the school, together with the College Dispensary, affords ample clinical material.

ADVANCEMENT: Students must make satisfactory progress and show fitness, both intellectual and moral, for the practice of medicine in order to maintain themselves in the enrollment of the school.

Address all inquiries to the DEAN, Creighton School of Medicine, Omaha, Nebraska.

THE ILLINOIS TRAINING SCHOOL FOR NURSES

509 South Honore Street, CHICAGO, ILLINOIS

Founded 1880

Offers a 3-year course to high school graduates over 18. Advanced standing granted for college degrees or credits. Hospital for General Diagnosis and Nervous Diseases

1820 East 10th St. - - - INDIANAPOLIS, INDIANA

NORWAYS”

An Institution devoted to the Research Study and Diagnosis of all problems in Medicine and Surgery. Especially the conditions involving the Nervous System.

All the newer clinical and laboratory methods of Diagnosis are employed.

It is our policy to return patients to their family or personal physician as soon as a Diagnosis is made and a proper line of treatment instituted. Therefore, we desire the co-operation of physicians in the study of their cases, in order that there be no lapse in the plan of treatment best adapted to the interests of the patient on his return home.

For further particulars, address

DR. ALBERT E. STERNE, or DR. LARUE D. CARTER
Care of "Norways" Hospital

Bram Goiter Institute

For the study and treatment of exophthalmic goiter and other forms of thyroid disorder associated with constitutional derangement

This institution is situated in Upland, Delaware County, Penna., 3 minutes' ride from Chester, Penna., 10 miles from Philadelphia. The buildings are located in a 36 acre park abounding in stately trees, rare shrubbery, varieties of flowers, and other natural attractions that engender a sense of physical and mental peace and contentment.

This is not a hospital; realizing the mental needs of most thyroid patients, hospitalization and the usual hospital atmosphere are conspicuously absent. The institution maintains its own orchard, truck farm, and poultry yards. Thus, patients while under treatment are at the same time enjoying a most pleasant vacation in ideal environments.

In the treatment of patients with exophthalmic goiter, the vital needs are congenial, tranquil, homelike surroundings; pleasant, understanding nurses and attendants; and expert individualization in hygienic, dietetic, medicinal and other measures indicated in therapeusis. Dr. Bram's Goiter Institute supplies these needs, and in addition aims through properly applied psychotherapy to effect the necessary mental adjustment so essential to recovery.

Individual physical and mental problems are studied with the purpose of effacing the vicious circles characterizing the clinical picture. Taught how to eat, how to sleep, and even how to think, patients discharged from the Institute enjoy unprecedented health and capacity for the resumption of life's duties and associated happiness. These results are accomplished, as a rule, by nonoperative measures.

Only referred patients are accepted, assuring satisfactory cooperation with the attending physician. Should the physician require for his patient merely a few days or a week of metabolic and clinical study, this is expertly done and a detailed report submitted; or patients may remain until substantial improvement is achieved, and later carry out the regime of therapeusis at home. Should the physician so desire, the patient may stay at the Institute for a sufficient time to become entirely well.

NOTE: Courses of instruction in diagnosis and treatment of goiter begin in June. Physicians in good standing with their local County Medical Society are eligible to join classes. For details address Dr. Israel Bram.

For further particulars communicate with

Dr. Israel Bram, Medical Director

1633 Spruce Street - - - - - - Philadelphia

THE WILBUR HOME

For mentally deficient children
and persons

Here is the answer to the problem that often confronts the Doctor when his advice is asked relative to placing a mental defective, whose family shrink from the idea of an institution.

The Wilbur Home at Kalamazoo, Michigan, founded in 1883, is beautifully located on a picturesque site overlooking that city.

It gives attractive home life to members of some of the leading families of America. Here they live amid friendliness and kindness. They have wholesome food, much of it grown on the surrounding 42-acre farm. They are kept comfortable and contented.

The leading physicians and surgeons of Kalamazoo provide any medical attention required.

45 years of continuous management by the Wilbur Family

For particulars, address

Supt. HELEN L. WILBUR, P.O. Box 875, KALAMAZOO, MICH.

All correspondence is strictly confidential

CHICAGO SANITARIUM

For MENTAL and BORDERLINE CASES

The Chicago Sanitarium, formerly located in 1919 Prairie Avenue, Chicago, is now located in its permanent home at 2828 Prairie Avenue. The new location, consisting of three buildings, provides all necessary departments for diagnosis and treatment. It occupies almost an entire block, and is convenient to downtown Chicago.

Spinal fluid analysis a special feature. Facilities for keeping serological patients over night following puncture.

A fundus ophthalmoscopic examination is done routinely in every case punctured.

For Medical, Surgical and Obstetrical Cases

—a friendly haven for the patient—

Kindly attendants minister to the wants of both patients and kin, and an experienced medical staff is always in residence at LEE SANITARIUM to furnish the best of medical care. The splendidly-equipped X-Ray department and the modern operating room facilitate diagnosis and treatment. Located in a spacious garden setting, LEE SANITARIUM offers unusually pleasant accommodations for a limited number of patients.

A postcard request brings you information on rates and facilities.

Athey Company

Perennial Window and Skylight Shades, Cloth Lined Metal Weatherstrip

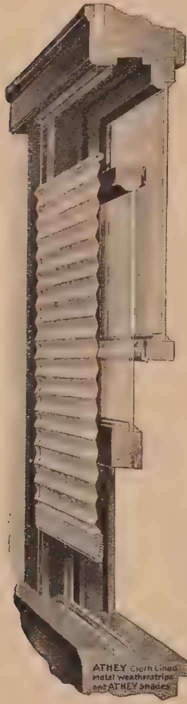
6167 West 65th Street, CHICAGO

MONTREAL, QUE., CRESSWELL-MCINTOSH CO., 420 Seigneur Street
BRANCHES AND AGENCIES IN PRINCIPAL CITIES OF UNITED STATES AND CANADA—See Classified Telephone Directories

Athey Products

WINDOW SHADES, SUNBURSTS and SKYLIGHT SHADES, all accordion pleated.

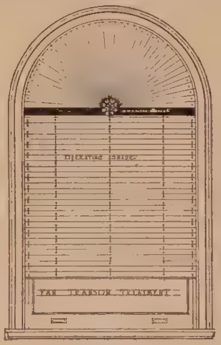
All types of CLOTH LINED METAL WEATHERSTRIPS.



Athey Pleated Shades

These pleated shades are produced solely by the Athey Company.

The cloth is a heavy coutil herringbone weave, 200 threads per square inch, guaranteed sun-fast. It is stabilized by strained bronze wires at either side. Shades raise from the bottom and lower from the top and are operated by a cord at either side.

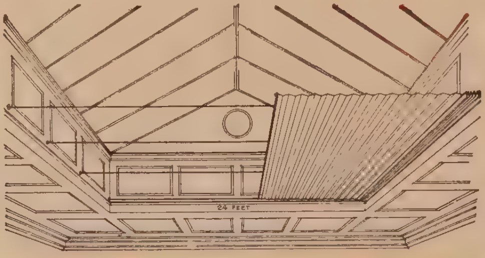


Window heads are treated with segmental, elliptical or semicircular, pleated sunbursts.

These shades have been adopted by 26 of the recent office buildings in Detroit. They give perfect control of the light and ventilation, eliminate awnings and will wear indefinitely.

The skylight shade is especially efficient. It operates automatically, disappears completely on cloudy days, and may be made in units as large as 20 x 40 feet.

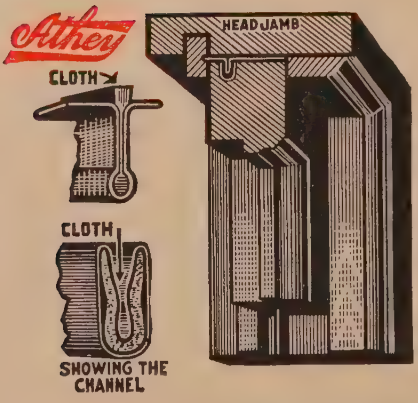
PROTECTED BY NATIONAL PATENT SECURITY CORPORATION CHICAGO



Athey Disappearing Skylight Screen

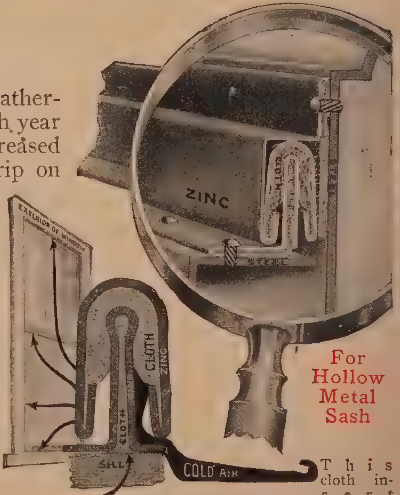
A Perfect Mechanism. The Most Efficient and Least Expensive. Shades Slide on Clips over Strained Brass Wires. Write for details.

Athey Cloth Lined Metal Weatherstrip



Athey Cloth Lined Metal Weatherstrip was invented in 1911 and each year since that time has shown an increased output. It is the only weatherstrip on the market with a cloth to metal contact. This method is smooth in operation, prevents all rattle and is a perfect seal against infiltration of dirt as well as cold air. We have innumerable shapes for all types of windows, all with the same principle of cloth to metal contact.

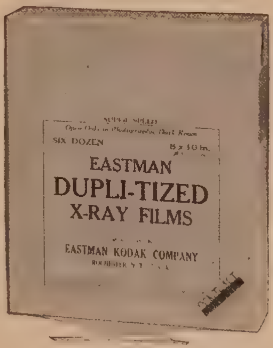
The cloth lined metal type is made *only* by this company. Write or consult our agents for literature and details.



For Hollow Metal Sash

For Wood Sash

This cloth insert makes a tight contact between metal and window frame. Architect's File 19e-14



The Dependable X-ray Film Is Eastman Dupli-Tized

Roentgenology has grown up with Eastman ray-sensitive materials; first, plates and in later years the world-famous *Dupli-Tized* film. These materials are preferred for their dependable uniformity.

◆

Now, there are two grades of *Dupli-Tized* film: the older *Super-Speed* and the new *Contrast* film with the controllable contrast. Both films are very fast, sparkling and free from fog. Both are dependably uniform.

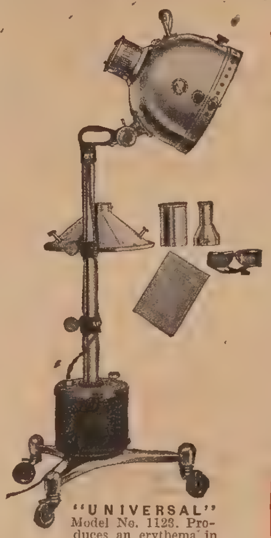
◆

Eastman Prepared X-ray Developer and Fixing Powders are supplied for best results in processing Eastman *Dupli-Tized* Films. Packed in powdered form, accurately compounded of photographically tested chemicals, their use eliminates laboratory work and makes immediately available the best developer for processing Eastman X-ray Films.

Eastman *Dupli-Tized* X-ray Films, *Super-Speed* and *Contrast*, and Eastman Prepared X-ray Developer and Fixing Powders are stocked by medical depots everywhere.

Eastman Kodak Company

Medical Division Rochester, N. Y.



"UNIVERSAL" Model No. 1123. Produces an erythema in 2 minutes at 12 inches—4 minutes at 22 inches. Self-lighting and self-adjusting. Now at new lower list price.

"UNIVERSAL"

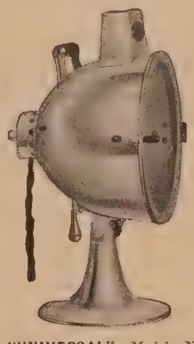
Carbon-Arc Ultra-Violet Lamps

The practice of Light Theraphy is far more general today than at anytime since its inception. Likewise, with 22 years in research and experience behind them, *"UNIVERSAL"* Lamps are now more highly perfected and popular than ever before.

Carbon-Arc lamps have the distinction of being the pioneers in Light Therapy. *"UNIVERSAL"* Carbon-Arc Ultra-Violet Lamps represent years of research and development—their simplified beauty of design enhance the appearance of any office; quality construction; economical and dependable operation; operate on either direct or alternating current. *"Universal"* Lamps offer greater value for less money and are unconditionally guaranteed.

"There is no substitute for experience"

"UNIVERSAL" Lamps are not in the experimental stage. Twenty-two years' experience gained in supplying and manufacturing Infra-Red Lamps; Mercury-Arc Quartz Lamps; and self-lighting, self-adjusting Carbon-Arc Ultra-Violet Lamps for Physicians, Hospitals and Sanitariums at prices ranging from $27.50 to $1200.00 is built into every "UNIVERSAL."

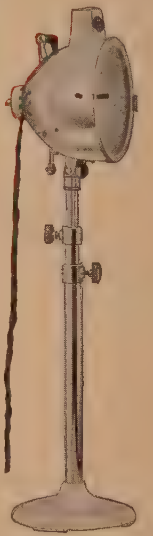


"UNIVERSAL" Model No. 29. A thoroughly dependable Ultra-Violet Lamp to prescribe for your patients and for "shut-ins." List price $37.50.

Portable Models

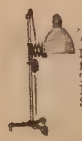
With the announcement of this new model (No. 29) to the profession, *"UNIVERSAL"* Lamps embrace models of every type and for every purpose for which Light Therapy has been successfully applied.

"UNIVERSAL" Carbon-Arc Ultra-Violet Lamp Model No. 29 is a truly portable lamp, embodying all the features of the larger models in an efficient, compact and sturdy design for which *"UNIVERSAL"* Lamps have become world famous. Ideal for the doctor who wants efficiency at lowest possible cost. Operates on either direct or alternating current.

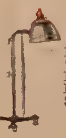


"UNIVERSAL" Model No. 291. Same as Model No. 29 except with adjustable floor stand. List price $50.00.

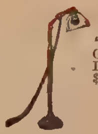
A Complete Line of Infra-Red and Deep Therapy Lamps



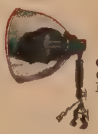
"UNIVERSAL" Model "A" Infra-Red Deep Therapy Lamp. List price $100.00.



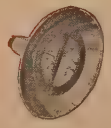
"UNIVERSAL" Model Junior "A." Infra-Red Deep Therapy Lamp. List price $52.50.



"UNIVERSAL" Glolite Infra-Red Lamp. List price $27.50.



"UNIVERSAL" Glolite Infra-Red Clamp Lamp. List price $15.00.



"UNIVERSAL" Mogul Glolite Generator. Fits all large therapeutic lamps. List price $25.00.
